## **How we calculate Fees**

Fees are calculated for the total choosed courses plus additional extra subjects if selected.

## **Academic Discounts**

Secondary school students with high grades from previous schools and with awards in areas such as Maths, Science and Technology can get a discount (Scholarship) on tuition at our school from 5% to 30%. To receive a scholarship, students are required to pass tests in Maths and English at our school.

## **Sibling Discount**

We offer a 10% discount on siblings' tuition if you enrol two or more children in your family. The discount will be taken off the tuition for the second child (and third, fourth, etc.).

## **Examination Fees**

These fees are a one-off payment to the school if the school registers your child for the Cambridge Examination Centre. You need to pay these fees about 5 months before the exams (which are either in May/June or October/November each year).

## **Should you wish to cancel**

If you find that the course is not suitable for your child, and you let us know within 30 days of enrolment that you wish for a refund, we will return what you have paid, except the registration fee.

After 30 days, where you have not requested a refund within that period, all instalment fees will continue to be payable on the agreed dates.

## **Section B: when payments are made**
